## Our Associates

## The Lanitis Carob Mill Complex

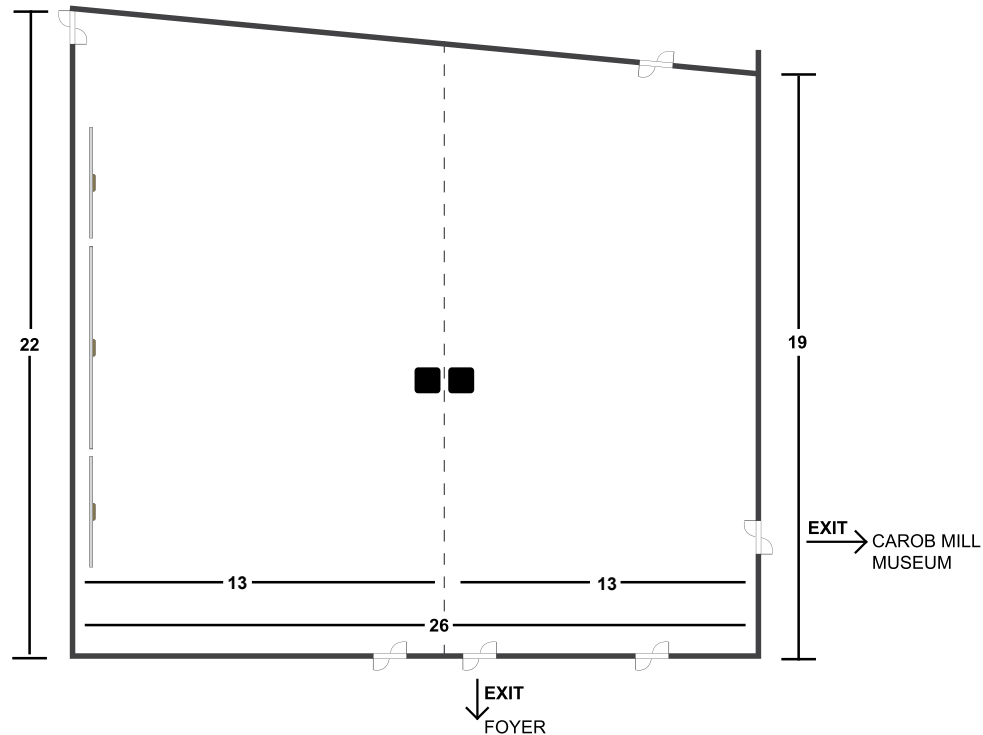

Located in one of the most historical areas of Limassol between the Limassol Marina and the Medieval Castle, the Carob Mill Complex was originally built in the late 1800's and used as a warehouse and later on converted into a carob mill in the late 1920's until 1960.

The renovation of the preserved building took place in 2000 creating an environment which blends the authentic atmosphere of the past with

the sophisticated high tech look of the present. The building consists of 3 venues ideal for hosting conferences and social events, international exhibitions and award ceremonies, the Carob Mill Museum, the award-winning Carob Mill Restaurants and a parking area.
